EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The non-elected claims 12-14 have been canceled. These claims were elected without traverse.

Changes To The Drawings

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: A figure should be added to show the step of removing the protective member from the electroconductive film on the first surface of the substrate in an area corresponding to the micropore since the step is an important feature of the invention. The drawings must show every feature of the invention specified in the claims. Therefore, the removal step must be shown or the feature(s) canceled from the claim(s). In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.
